The program may take two years to complete if you have successfully completed the science pre-requisites. The science pre-requisites can be completed at the College of Mount Saint Vincent or transferred from another institution. Candidates applying to the College who wish to transfer in the science pre-requisite classes must have completed the class within the last five years and have earned a grade of "B" or better. All required courses are offered at the Manhattan site (except for Microbiology and the chemistry labs).

*Core Enrichment Courses.

†Pre-requisites to the clinical component of the nursing program.
