Connecting to VPN from windows 7

Connecting to VPN (initial setup):

1. Go to the start button and click on control panel:

2. Then click on “View network status and tasks” (under Network and Internet)
3. Then click “Set up a new connection or network”
4. On the next window, click on “Connect to a work place”, and then click next

5. Click on “Use my Internet connection (VPN)”
6. Internet address: vpn.mountsaintvincent.edu and destination name: CMSV and click next:

![Connection dialog box](image)

- **Internet address:** vpn.mountsaintvincent.edu
- **Destination name:** CMSV

- **Use a smart card**
- **Allow other people to use this connection**
  - This option allows anyone with access to this computer to use this connection.
- **Don't connect now; just set it up so I can connect later**

7. The username and password are the same as your e-mail account. Enter the information and click next.
8. You should now be connected.
Note: After the initial connection you will be able to connect by clicking on the following symbol (located in the lower, right hand side of your desktop):

And then click on CMSV and connect:
